

The Indianapolis Radio Club Newsletter

Founded 1914

January 2018 Newsletter

Upcoming Meetings:

February 9: Dave Arland gives his always informative summary of the latest and greatest from the Consumer Electronics Show in Las Vegas.

March 9: Wayne Michael, AC9HP, on board to showcase QRP HF radios.

Highlights from the December Holiday Dinner Meeting:

The 2017 Holiday Dinner Meeting was held at the Castleton MCL Cafeteria. There were about 30 in attendance. The speaker for the evening was retired General Goodwin from the Indiana State War Memorials. General Goodwin oversees the operation and maintenance of the war monuments in Indianapolis, including the Soldiers and Sailors Monument on Monument Circle and the Indiana War Memorial. General Goodwin gave a great presentation on what it takes to keep these monuments operating, along with some nice insight on how the monuments are received by veterans, especially those who served in World War II.

NOTE: The January meeting was cancelled due to unsafe driving conditions.

Ham Radio News:

MARION COUNTY ARES NETS STILL ON 147.21

Pending repairs to the 146.700 repeater, the Marion County ARES Wednesday night net is being held on the 147.210 repeater. The net is still held at 7:30 pm, with Newslines preceding the net at 7:00 pm.

Thursday, March 22: 3:00 pm Marion County

Tuesday, March 27: 6:30 pm Marion County

Point your browser to <http://www.weather.gov/ind/spotter#train> for more info.

GREENE COUNTY FAIRGROUNDS BUILDING EXPANSION

We are pleased to announce The Greene County Commissioners and the Greene County Fair Board have approved the construction of a new building at the Fairground/Expo Center.

Greene County officials have decided to move forward with construction of a new building as it will continue to expand their presence in the region as a world class Exposition Center!

Hamvention certainly benefits from the decision to expand the Expo Center footprint. Construction is planned to be complete ahead of Hamvention 2018 and will be used for the event.

Additionally, another building on the property previously known as Fairgrounds

Furniture, is being vacated and will be available for use by Hamvention 2018. More details regarding the building sizes will be forthcoming but Hamvention is told the floor space added will cover an area larger than the tents Hamvention used in 2017. Although this decision was made to expand opportunities at the Expo Center, Hamvention is grateful for the support Greene County, Xenia Township, and the city of Xenia.

Ron Cramer, General Chair
Jack Gerbs, Asst. Gen. Chair
Michael Kalter, CFO/Official Spokesperson

W1AW ACTIVE ON 6 METERS

W1AW is now QRV on 50350 kHz for all its regular CW code practice, and CW, digital, and phone bulletin transmissions.

In addition to providing regularly scheduled transmissions on 6 meters, another goal is to act as a beacon on 6 meters, especially from the Northeast US.

Signal reports are welcome via an online page at, http://www.arrl.org/w1aw_6m_srp . Reports may also be emailed to W1AW at, w1aw@arrl.org.

NEW TECHNICIAN LICENSE QUESTION POOL RELEASED

The National Conference of Volunteer Examiner Coordinators (NCVEC) has announced the release of the 2018-2022 Amateur Radio Element 2 Technician class license question pool into the public domain. Each question pool must be published and made available to the public prior to its use as a question set, from which individual examinations are developed.

The new question pool, along with Errata, is available at <http://www.ncvec.org/page.php?id=369>

The new Technician license question pool contains 428 questions. It will become effective for all Technician class license examinations starting on July 1, 2018.

FCC STATEMENT REGARDING GOVERNMENT SHUTDOWN

“In the event of a partial government shutdown, because of available funding, the Federal Communications Commission plans to remain open and pay staff at least through the close of business on Friday, January 26,” the FCC said.

This means the FCC will continue to accept and process Amateur Radio license applications and grants at least for another week.

<http://www.arrl.org/news/fcc-announces-plans-for-partial-government-shutdown>

NASA ON THE AIR EVENT UNDER WAY

The Amateur Radio clubs at National Aeronautics and Space Administration (NASA) centers around the US have invited the Amateur Radio community to join the NASA On The Air (NOTA) special event. NOTA kicked off in December and continues through December 2018. In addition to being the agency's 60th anniversary, 2018 marks 50 years since NASA orbited the first human around the moon, and 20 years since the first elements of the International Space Station (ISS) were launched into low-Earth orbit. Some clubs will offer commemorative QSL cards, and a special certificate will be available indicating the number of NASA club stations worked on various bands and modes. More information is available at <https://www.nasa.gov/feature/nasa-on-the-air-events-to-highlight-key-space-milestones>

FOR SALE

National NCL-2000 Linear amp \$500
80-10 meters 1000 watts out plus.
Pair of RCA 8122 tetrodes
Input drive selectable 20W or 100W (either will drive the amp to full output)

This amplifier was donated to the Indianapolis Radio Club and I have checked it out and I am currently using it with my SB-104A.
