

The Indianapolis Radio Club Newsletter

Founded 1914

September 2022 Newsletter

Upcoming:

October 14: In person meeting at Salvation Army EDS. Topic TBA.

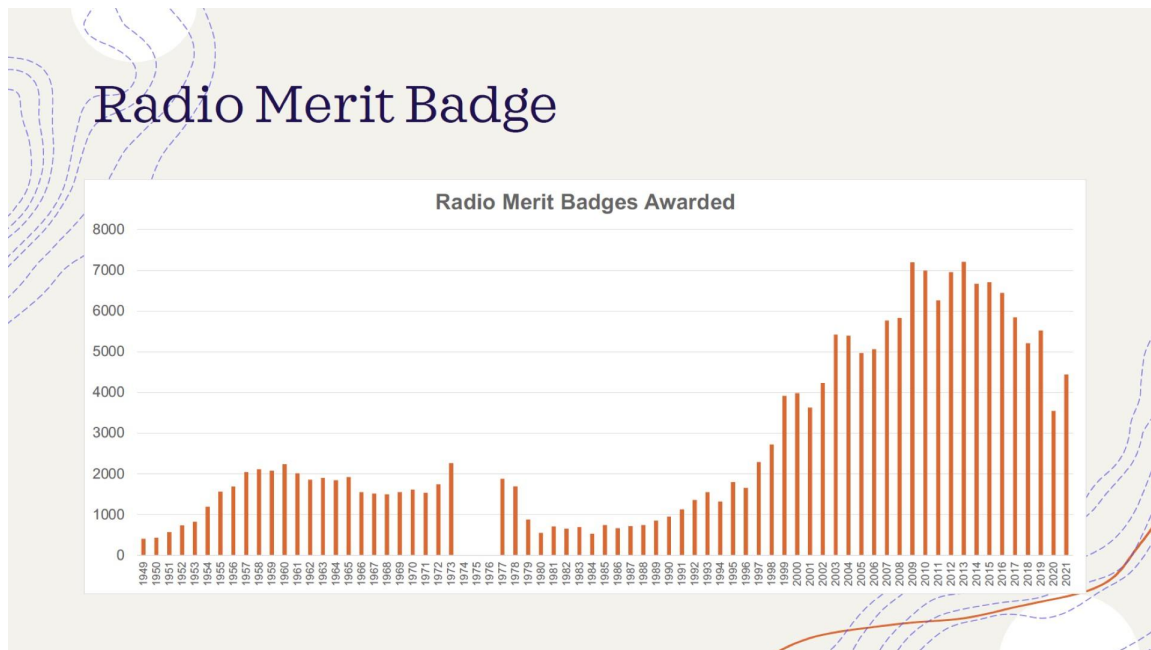

November 11: Steve Herman, W7VOA, former Voice of America White House Bureau Chief, currently VOA's Chief National Correspondent. **This meeting will be via Zoom.**

December 9: We're going to revive the annual Christmas pitch-in party. **In person at the Salvation Army EDS.**

Highlights from the September Meeting:

Jim Brown, WØRLD, talked about the Amateur Radio and Scouting course that he and David Spoelstra, N9KT, conducted at Philmont Training Center near Cimarron, New Mexico last July. PTC is the national training center for Scouting USA where Scouters take courses to improve the experience in Scouting for youth. The course was the first at PTC centered around a merit badge. There were many firsts during the week-long course. Brown made his first satellite contact and talked to an astronaut on the International Space Station, Six scouters took the course and one of them earned his Technician license at Philmont-another first. There was a field radio exercise at Urraca Mesa where, according to Native American lore, there is an opening to the evil spirits of the underworld. Thankfully there were no radio contacts with the underworld although it would have an interesting and rare QSL card. Each conferee made a tape-measure Yagi that they used in a Fox hunt

Jim included the following slide to indicate the number of Radio Merit Badges awarded by the BSA from 1949 through 2021:

Ham Radio News:

SUPPORT THE IRC VIA YOUR ARRL DUES

For many years, the ARRL has had a “Club Commission Program”, where a portion of any ARRL dues that were paid through a local ARRL affiliated club (such as the Indianapolis Radio Club) could be “kicked back” to that club. Recently, the ARRL has made this program more attractive to clubs, and easier to administer for the clubs. Under the updated program, local clubs can earn \$5 per regular membership renewal, or \$15 per new membership. Only REGULAR memberships are eligible for this program. Life, Family, International, Blind, and Student memberships do not earn a commission. Multi-year renewals only earn one commission. If you’re not currently a member of the ARRL (or haven’t been a member for at least two years), now would be a great time to join! You can download and complete [this form](#), and turn it in at the next club meeting, along with payment. If you want to pay by cash (\$49) at a meeting, that is fine, and the

club will send a check on your behalf to the ARRL. I will have a few of the forms with me at club meetings.

SUPPORT THE CLUB WITH AMAZON AND KROGER REWARDS

If you shop at Amazon, please consider supporting the Indianapolis Radio Club with your purchases. The IRC is one of over a million not for profits that can be selected to benefit from the “Amazon Smile” program. To learn more about the Amazon Smile program, follow [this link](#). To support the IRC with your Amazon purchases, go to the [charity selection page](#), and enter “Indianapolis Radio Club” in the search field. That search will find our club and the “Indianapolis Press Club Foundation, Inc.” (for some reason). Be sure to select “Indianapolis Radio Club”. Once you have made that selection, Amazon will donate .5% of the purchase price of eligible items (most things are eligible) to the radio club in a quarterly donation. Just remember to go to <https://smile.amazon.com/> when making Amazon purchases. You can also make Amazon Smile purchases through the Amazon app. There is no cost to you for using Amazon Smile.

You can also donate to the IRC if you shop at Kroger by utilizing the [Kroger Community Rewards Program](#). If you don’t already have a Kroger Plus card, you can get one at any Kroger. There is no charge to you for acquiring a Kroger Plus card. Once you have your card, go to [this page](#) and search for “Indianapolis Radio Club”. After you have completed this process, when you shop at Kroger, be sure to scan your card, and a percentage of each of your purchases will be donated to the club. An added “plus” of the Kroger Plus card is the discounts you can get on fuel purchases at Kroger fuel stations!

ANNUAL RADIO CLUB DUES ARE PAYABLE ANY TIME

Annual dues to the Indianapolis Radio Club are payable any time. Dues are credited per calendar year, so if you are not currently a paid-up member, any payment made now will pay your dues through the end of 2022. If you are currently paid-up, any payment made now will extend your membership by another year. You can always check your current membership status by going to <https://tinyurl.com/radio-club-members>. Individual dues are \$20 per year, family dues (for all family members residing at the same address) are \$30 per year, Student membership (with valid student ID) is \$10. Dues can be paid via PayPal payment addressed to treasurer@indyradioclub.org, cash at a meeting, or check (made out to Indianapolis Radio Club) either at a meeting or mailed to: Indianapolis Radio Club, 7405 E. County Road 900 N, Brownsburg, IN 46112.

AMATEUR RADIO INVOLVED IN IAN RESPONSE

ARRL Director of Emergency Management Josh Johnston, KE5MHV, said many ARRL Amateur Radio Emergency Service® (ARES®) volunteers and their groups are involved across Florida, Georgia, and South Carolina. “Many ARES groups throughout Florida have been in a state of readiness since before the weekend,” said Johnston. “These amateur radio volunteers are well-connected with their state and local emergency management partners in government and non-government organizations.” Johnston also said that there are ARES members, at the request of the Florida Division of Emergency Management, serving in the state Emergency Operations Center. Many ARES groups are also operating in several shelter locations.

ARRL has previously deployed Ham Aid kits in the region. The kits include amateur radio equipment for disaster response when communications equipment is unavailable.

FCC GRANTS TEMPORARY WAIVER FOR HIGHER DATA RATES

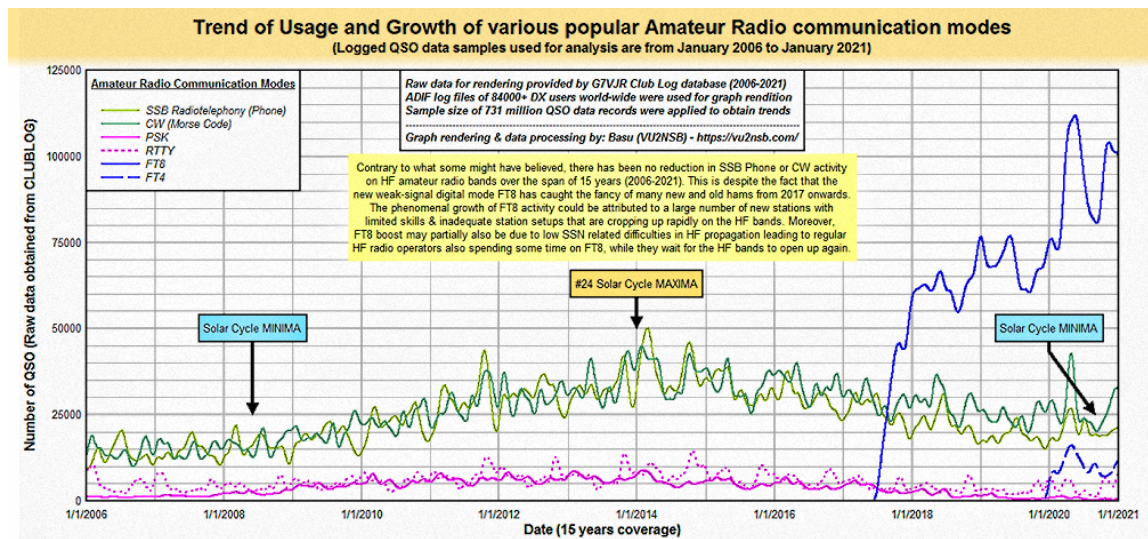

The Federal Communications Commission (FCC) has granted an ARRL emergency request for a 60-day temporary waiver intended to facilitate amateur radio emergency communications for hurricane relief. The waiver was adopted on Tuesday, September 27, 2022, and immediately permitted amateur radio operators supporting amateur data transmission for Hurricane Ian traffic to employ a higher symbol rate for data transmissions than the current limit of 300 baud.

<http://www.arrl.org/news/fcc-grants-an-arrl-emergency-request-to-permit-higher-data-rate-transmissions-for-hurricane-relief-c> for the full story.

HOW HAS FT-8 CUT INTO OTHER MODE USAGE?

According to data gathered from Club Log submissions, other than decreases due to worsening solar conditions, “legacy modes”, such as SSB and CW remained steady as FT-8 took off after it’s introduction in 2017, as can be seen in the following graph prepared by VU2NSB:

UPCOMING CENTRAL INDIANA TESTING SESSIONS (check with sponsor before planning to attend)

10/01/2022

Sponsor: Bloomington ARC Inc

Date: Oct 01 2022
